Super Duty Compound

Our most aggressive compound. Super Duty levels paint runs and 800 - 1,000 grit scratches quickly. Super Duty stands out as the toughest compound available for today's clear coat paints. Contains Crystalline Silica
Part #'s 22-934 Gallon, 22-933 Quart

Qwik Kut MV-350

Removes 1,000 - 1,200 scratches from even the hardest paint systems. Creates the faster cut necessary for these paint systems, but still polishes out to a great swirl free finish. Easy clean-up makes compounding a snap. Follow with UNO for a perfect finish in just two steps.
Part #'s 22-814 Gallon, 22-913 Quart

Qwik Kut MV-250

Designed to remove 1500 - 2000 sanding scratches and oxidation, MV-250 buffs easy and the heat induced abrasives break down to create a gorgeous finish. Follow with UNO or Foam Pad Machine Glaze to create a deep, swirl free Finish.
Part #'s 22-804 Gallon, 22-803 Quart

Krystal Kut Compound

Designed as a micro-finishing compound, we combine two synthetic abrasives which first cut, then break down and polish the finish to a smooth gloss. Use to remove 1,500 sanding scratches, acid rain, oxidation, etc. Slower drying time allows longer working time and better polishing. Contains Crystalline Silica
Part #'s 22-604 Gallon, 22-603 Quart

UNO - All in One Compound & Glaze

When used with a wool cutting pad, UNO will remove not just hide 1200 grit sanding scratches. Then switch to a foam pad and buff again to create a deep, swirl-free finish. UNO Creates a deep, rich finish with easy clean -up
Part # 22-984 Gallon, 22-983 Quart

Mystique

Blended with micro-fine abrasives, Mystique is the ultimate product for finesse compounding. Actually eliminates compound swirls and scratches caused by harsher compounds. Creates a deep, smooth luster in one easy application
Part #'s 22-664 Gallon, 22-663 Quart

Foam Pad Machine Glaze

This silicone free glaze is perfect for removing light scratches or swirl marks. Creates a deep, dark shine for the perfect finish. Use with a high speed buffer and soft foam pad for best results. Recommended for black, red and other difficult to polish colors.
Part #'s 22-444 Gallon, 22-443 Quart

Hand Glaze

A Break-through product. Apply by hand or orbital polisher to remove light scratches and create the ultimate shine. Easy on and off formula make this product the best silicone free polish available today. Protects paint for up to 3 weeks. Great for detailing/cleaning after machine glazing.
Part #'s 22-504 Gallon, 22-503 Quart

Body Clay

Body Clay is the easiest way to remove overspray, tree sap mist, brake dust and other contaminants from a vehicles paint, glass and decorative trim without the use of harsh chemicals. Available in two strengths.
Part #'s 122-100 Mild, 22-110 Moderate

Rubber Dressing Concentrate

A short term non-silicone formula designed specifically for body shops. Very economical (mixes 4:1). For exterior rubber trim only.
Part #'s 13-344 Gallon, 13-335 Bucket
