Product Description:

The best bug remover available.

Strong enough to remove even the most baked on bug residue, but gentle enough to not stain paint on hot summer days.

Our Bug Remover contains a blend of water miscible solvents and proprietary surfactants. They work together to safely and effectively remove all types of bugs from paint, glass, plastic and chrome surfaces.

Bug Remover is a non-caustic formula. Most bug removers use high pH caustic ingredients to melt bugs. This is what can stain paint, chrome and plastic surfaces. Our product does not contain caustic ingredients. Instead, it uses a unique surfactant technology that penetrates the bugs and quickly releases them from the surface. This allows them to be easily rinsed away.

Advantages:

- ◆ Removes all types of bug residue
- ◆ Unique surfactant technology
- ◆ Environmentally safe
- ◆ Non-Caustic formula
- ◆ Quickly releases bugs from surface.
- ◆ Concentrated.

Part Numbers:

- ◆ 1 gallon bottle # 19-104
- ◆ 5 gallon tighthead # 19-105
- ◆ 55 gallon plastic drum # 19-108

Directions:

1. Dilute 3 parts water to 1 part Bug Remover
2. Spray diluted product onto the bugs. Spray from bottom of vehicle up. Allow product to dwell for 20 - 30 seconds then scrub with a wash pad, sponge or bug sponge
3. Rinse with water.
