#### Product Description:

Fast n Brite uses a blend of mild, polishing abrasives, carnauba wax and ceramic polymers to create an easy to use one step.

Fast n Brite is perfect for using on a vehicle that needs light to medium paint correction. It will remove oxidation, light to medium scratches, halograms, & spider-webs and then seal the paint and protect it for up to 6 months.

It is the perfect product for use in auctions and high volume detailing shops.

Fast n Brite can be used with wool or foam pads. Just choose the pad to create the cut / polish attributes. Most customers use a medium grade foam pad. It provides enough cut to remove paint imperfections while polishing to a flawless finish.

Fast n Brite is recommended for use with a high speed buffer, but can also be used with an orbital polisher. It will cut less and polish / finish better with the orbital polisher.

#### Advantages:

- ◆ All in one cleaner & sealant
- ◆ Contains long-lasting SiO<sub>2</sub> polymers
- ◆ Versatile & easy to use
- ◆ Very low residue - Low Dust
- ◆ Last for months
- ◆ Non-smearing. Works in all types of weather
- ◆ Use with high speed or orbital polishers

#### Part Numbers:

- ◆ 16 oz. # 22-302
- ◆ 32 oz. # 22-303
- ◆ 1 gallon bottle # 22-304

#### Directions:

1. Surface should be clean and cool to the touch.
2. Apply with a high speed or orbital polisher
3. Apply a small amount of product to pad or paint surface and spread over a 2' x 2' area.  
Try to keep pad flat at all times while spreading product evenly over the paint surface.
4. Buff evenly until surface is smooth and product is almost gone.
5. Remove residue with a microfiber towel. Continue to next section.
